FORMAL STATEMENT OF MEETING
This document records a project review meeting held by the development team, intended to record reviews mentioned herein. The meeting was convened to address specific bugs and improve the project's data management capabilities. The meeting began with a discussion on changing file references to URLs across several database tables, a move aimed at improving the system's consistency and reliability. The team also focused on fixing a critical bug where the delete function was incorrectly removing the entire request from the quotations, which had caused significant issues in previous iterations. Additionally, a PUT method for handling invoices was implemented, and the creation process for forms was fixed to ensure accuracy and ease of use. The team also improved the system's ability to retrieve projects by user, ensuring that data was handled more efficiently. The meeting concluded with the team resolving these critical issues, thereby enhancing the project's overall performance and reliability.
